About ERBC Group

European Research Biology Center (ERBC) is a European CRO, leader in non-clinical studies. The company offers to healthcare and chemical professionals a comprehensive range of experimental capabilities, preclinical models, regulatory pre-IND package and consultancy services to de-risk innovation and improve R&D productivity.

Based in Baugy (France) and Pomezia/Roma (Italy), ERBC provides all services from preclinical proof-of-concept to market of any type of drug candidate or chemical compound. Each project is managed by a study director, relying on a multi-disciplinary team of experts (240 FTE), notably in general pharmacology, cardiology, electrophysiology and pathophysiology, also leveraging on a world class academic and private network.

ERBC is deeply engaged in animal ethics and welfare. ERBC supports the Basel Declaration, respects the 3Rs concept and continually improves its tools and procedures to maximize the balance between the benefit for health and the animal well-being.

At ERBC group, we value our employees and consider them an integral part of our company's growth and success. Our employees are our most valuable asset, and the individual perspectives and contributions of each person on our team are essential to our success.

When recruiting, we are looking for people who have expertise, team-spirit, great sense of ethic and a true commitment in animal welfare. We commit to the creation of a durable relationship with our employees by ensuring that their working environment fosters team spirit, promotes training and offers career development opportunities in France and in Italy.

By joining ERBC group, you will join an entrepreneurial project with a human dimension that values individual and collective responsibility, with a high societal dimension and the ambition to contribute to the progress of medical research.
